

ONCOLOGY REHAB

South Eastern
Private Hospital

ONCOLOGY REHABILITATION

Oncology Rehabilitation is delivered as an inpatient, day patient or a combination of both. It is specially developed to cater for patients before, during and after cancer treatment.

Oncology Rehabilitation aims to reduce the impact of cancer treatment on the body and mind. It will also improve function and endurance and it emphasises the restoration and maintenance of quality of life.

Our experienced staff will walk with you throughout your cancer treatment and survivorship journey.

To achieve the best outcome, referral to our day program is recommended at the time of initial diagnosis. Inpatient or further day program treatment options would be recommended at the conclusion of your treatment.

HOW TO ACCESS THE PROGRAM:

Referrals from your GP or your treating specialist can be forwarded to:

- Fax: (03) 9549 6323
- Email: sephrehab@healthcare.com.au

For further information please call:
Ph: (03) 9549 6438
